

Product Upgrade

Upgrade Effective:
April 1st 2018

Self-aligning Bearings

Supporting and Levelling Elements

Conveyor Components

Upgraded box quantities for components and implementation of minimum order quantities

What is changing and when?

Rexnord has upgraded the box-quantities for a selection of components. This means that this selection of components will only be available per box and no longer per piece. The selected components and box-quantities can be consulted in the below tables. This upgrade will be effective April first, 2018.

Does this upgrade affect price and delivery?

The price will not change. The delivery time will be significantly improved!

Will there be a change in item description and code number?

The existing part numbers and descriptions will remain the same.

Will there be a phase out period?

After April first, it's no longer possible to order these components per piece.

Will the order procedure change?

With this upgrade, we will accept orders for standard box quantities only.

Self-aligning Bearings

Series	Original Standard Quantity	Upgraded Standard Quantity
